# Penguins Join the Woodstock Chimes DCUKs Collection

*Jennifer Polanz*

Earlier in 2015, Woodstock Chimes re-launched the DCUKs line of hand-carved bamboo ducks (this time wearing colorful wellies) from the UK-based DCUK—the Duck Company. Now, they're adding a new line called The Natural Penguin Babies and Mums this summer, which will debut at market showrooms and the IGC Show in Chicago.

All ducks and penguins are handmade, and each has a unique pose, personality and even comes with its own name printed on a cotton card nametag. These are all made for indoor use and come in five different styles of patterned rainboots.
