Flower Fusions

Jennifer Polanz

We've compiled some flowerific hanging basket combos and containers for 2016—now it's your turn. You tell us your favorites!

The gardening public loves their mixed containers and hanging baskets. We all know this. And now the breeders are getting into it more than ever with named container and hanging basket combinations that knock your socks off (figuratively, not literally—they're pretty, not violent).

Here's what we're doing on these pages: You take a look at these combos and tell us which one you like best. Just one. You can't vote for three or five or six. You have to commit to one. That's it. It's so easy; you can do it! Then, in an upcoming issue, we'll highlight the favorites. It'll be great—so get to gettin'. Check 'em out and email me at jpolanz@ballpublishing.com. It'll just take a second. If you're feeling really inspired, tell me what your ideal container combos would look like and we'll compile a list of those as a sort of future wish list.

Ball FloraPlant

Eye Caramba, part of the MixMasters multiliner program: Petunia Flash Mob Bluerific, Verbena Aztec Violet Wink and Calibrachoa Cabaret White
