Master Nursery Adds Griffin

Jennifer Polanz

Master Nursery Garden Centers announced in August it added Griffin Greenhouse Supplies to its vendor roster. Members now have five distributors to buy from in the MNGC network, and Griffin is the only one that offers green goods, hard goods and retail supplies. The MNGC vendor network now has more than 150 manufacturers, growers and service providers.

“Griffin’s broad offer and national reach are terrific complements to our vendor lineup,” says Gerry Dockstader, vice president of operations at MNGC. “This addition enables Master Nursery to expand product and service options for our members, especially throughout the Midwest, Rocky Mountain and Pacific Northwest regions.”

More than 500 garden centers across the country are Master Nursery Garden Center members. Visit www.masternursery.com for more information. **GP**
