Getting the Kids into Terrariums

Jennifer Polanz

Terrariums are a great indoor activity for families to explore when they can't get out in the garden. Cool Springs Press is releasing a new book in September that can help, called "A Family Guide to Terrariums for Kids" by Patricia Buzo. The book includes 15 unique, imagination-inspiring project plans, all with full-color photographs and step-by-step instructions, along with explanations for the science behind it all in easy-to-understand terms.

Retailers interested in purchasing can contact sales rep Theodore Evans at Theodore.Evans@Quarto.com. GP
