Cool Container Colors

Jennifer Polanz

We'll be running container combo ideas from partner members of National Garden Bureau. You have to be a member to have your combos listed on the NGB website and featured here. (If you're not a member, you should be! Visit ngb.org/become-a-member to sign up!)

This month's container has a "cool" look in a number of ways. It features icy options like:

Cool Wave Frost Spreading Pansy

Sorbet Delft Blue XP Viola

Blue Arrows Juncus

Calocephalus

This option is great for winter mixes in slightly warmer climates, as well as early spring mixes (and autumn) in colder locales, and is best in full to part sun. **GP**
