Pets on the Payroll

Jennifer Polanz

Everyone, meet Olive. Chelsie Stevens from Cashman Nursery in Bozeman, Montana, writes in: "As the owner says, 'This is Olive, she's on our payroll. She's our vole control.' or 'She's worth her weight in Olives.' We got Olive on Halloween last year and our customers just love her!"

"We thought this picture taken by one of our employees was too perfect not to share! Not only is it adorably perfect, peep that plant name. Olive has boosted our nursery experience for employees and customers alike."

Thanks, Chelsie—that picture is perfect!
