Porch Pot Mania

Jennifer Polanz

Winter porch pots continue to be popular, especially with workshops attached to them. I asked Shannon Kuhrt at M&M Wintergreens for component ideas, and she sent over their custom Southern Porch Pot Kit that can be dressed up for the holidays or changed up for the rest of winter. It includes:

- Magnolia stems
- Carolina Sapphire Cypress
- Gold Tip Cedar

Shannon added the greenery holds for a long time, and as it naturally dries, the color tones fade to a beautiful muted hue. **GP**
