Aquascape Inc. = Healthy Company

Jennifer Polanz

Aquascape Inc. is one of 156 companies around the country receiving the designation of Healthiest Companies in America by Interactive Health. It's the second year the water gardening supplier has won the award, which is given based on participation rates in wellness initiatives and low-risk health scores for the company's total population. Aquascape Inc. offers its employees access to an on-site fitness facility, personal training services, a spa area and more.

If you'd like to see these facilities first hand, Aquascape Inc. will be a stop on this year's IGC Show retail tour on Monday, August 14 before the show, which runs August 15-17. **GP**
