Al's Flower Pouch New Website

Jennifer Polanz

Al's Flower Pouch recently launched a new website, looking to inspire home gardeners and the green industry to get creative with its products. These products can be used to grow ornamentals and herbs, fruits and veggies (see our story on edibles containers in this issue on page 26 for more). The website offers how-to videos, photo galleries, tips and other information, as well as the ability to purchase the flower pouches directly through the U.S. or Canadian site. Visit www.alsflowerpouch.ca to check it out. **GP**
