I came across a useful bit of information gathered by OnBuy Garden Furniture Sets about the top garden trends on Pinterest. There's a chart to follow, but the general highlights of this company's study into Pinterest are these (as of March):

- The top themes in the garden for Spring 2022 are wild, naturalistic and sustainable
- Balcony gardens top Pinterest's spring garden posts with roughly 270,000 pins

- Garden recycling is close behind with 233,246 pins
- "Jewel tones" saw a 190% increase in searches **GP**
