Pets on the Payroll

Jennifer Polanz

This month meet Momma from Gasper Home & Garden in Richboro, Pennsylvania.

"She was rescued a few years ago after being found in the barn with a litter of kittens. The kittens were all adopted by loving Gasper employees, and Momma decided to stay and make Gasper Home & Garden her permanent home," writes Cindi Sathra. "She has settled in with the daily running of the company and you may see her around when you stop by. She can be tucked in among the flowers, at the registers resting in the boxes or just taking a nap. Everyone here loves Momma—employees and customers alike!" **GP**
